2nd Annual OT in Oncology Symposium (7 PDUs) Symposium Schedule and Section Descriptions

7:30am – 8:30am

Registration / Light Breakfast / Networking

8:30am – 9:00am

Welcome/Introduction: Expanding the Role of OT in Oncology

9:00am – 10:00am

Section 1: A Comprehensive Approach to Breast Cancer Rehabilitation

Learn how to address the unique needs of individuals with breast cancer through a comprehensive and holistic approach to treatment. From diagnosis to survivorship, individuals are experiencing a vast number of physical, psychosocial, and cognitive changes that impact occupational performance and quality of life. This presentation will focus on occupational therapy's role in addressing various challenges across the continuum of care.

10:00am – 11:00am

Section 2: #TheStrugglesReal: Dealing with Cancer and Its Aftermath in Adolescence

This session will explore the ways in which having cancer specifically affects the adolescent population from diagnosis to inpatient hospitalization to the long-term side effects of chemotherapy and radiation. The occupations of adolescents center around the development of identity and the impact of living with cancer presents unique challenges to this population. This lecture will address themes of isolation, body image, sexuality, social media presence, and the physical, psychosocial, and emotional implications of dealing with cancer in the teenage years.

11:00am – 12:00am

Section 3: Cancer Related Lymphedema and Edema: Evaluation and Treatment

Edema and lymphedema are common side effects of cancer and its treatment in which fluid builds up in body tissue. These conditions may interfere with one's ability to engage in daily activities, which is why it is crucial for therapists to address this issue effectively. This presentation will explore causes, assessments and intervention techniques to equip practitioners with the tools to assist patients in accomplishing their functional goals.

12:00am – 1:00pm

Lunch (provided) / Networking Opportunity

1:00pm – 2:00pm

Section 4: Enhancing Clinical Practice for Sexuality in Oncology

This session will explore Occupational Therapy's unique role in addressing all aspects of sexuality, including sexual functioning, body image, and self-esteem, as well as the challenges in clinical practice faced by practitioners across various specialty areas and settings. Presenters will discuss effective training methods to improve staff comfort levels in addressing this sensitive topic with patients and strategies to deliver practical, client-centered interventions of the challenges identified in current practice.

2:00pm – 3:00pm

Section 5: Management of Cancer Pain: A Lifestyle Redesign® Approach

Learn about Lifestyle Redesign® pain management interventions for cancer-related pain, including treatment of common mental health comorbidities, and understand the process of evaluation, documentation and billing for this treatment approach.

3:00pm – 4:00pm

Section 6: The Growth of OT in Oncology Care and Projections for New Programming

This session will highlight occupational therapy's (OT) involvement and the positive impact of OT's unique role within the oncology population. Emphasis will be placed on advocacy, opportunities to develop the OT caseload, the importance of interdisciplinary collaboration, and utilization of standardized tools. Discussion will include the current role and future opportunities to advance occupational therapy practice in oncology, as well as opportunities to understand the patient perspective on the oncology rehabilitative process.

4:00pm – 4:30pm

Section 7: Ask the Experts

This is an opportunity to ask questions of all the presenters.

Coordinated by OTAC Professional Development Committee

Chair Judy Hopkins, OTD, OT/L, SWC, CLE; Sherry M. Hite, MOT, OTR/L; Kendra King, OTR/L, CBIS
