Dear Shawn and OTAC staff,

We know how important membership is for the state organization to be able to do the work they do for all therapists and therapy businesses in the State of California. We have been very conservative with our expenses since June of this year because of the cut-backs in funding programs for children with disabilities from the State of California. These cut-backs have had a huge impact on our business cash flow and unfortunately have resulted in our having to let staff go and to decrease salary of others, including the owners of Therapy West, Inc.

We are literally counting pennies and have been very torn about the decision we made to NOT renew our OTAC membership this year. Despite the financial situation of our business at this time, we have decided that we actually have a responsibility to renew our membership because we do understand how much support OTAC provides for all of us working in the State of California. This is a time that we need your support more than ever.

Please find our membership renewal (paperwork and payment).
Thank you.

Sincerely,

Bonnie Nakasuji
