

National Survey on Occupational Therapy Services

What is the survey about?

We want to find out the practice patterns and needs around occupational therapy assessment and intervention with parents and caregivers with physical and vision disabilities. This survey is part of a larger NIDILRR-funded Field Initiated Project at Through the Looking Glass.

Why should I take part?

Your participation will help us to:

- create online resources and other educational materials for occupational therapists and other professionals on ways they can support parents/caregivers with physical and/or vision disabilities
- expand our online resources and educational materials for parents/caregivers with physical or vision disabilities

For more information, contact

Megan Kirshbaum, PhD

Stacy Frauwirth, MS, OTR/L

Katharine Hayward, MPH, PhD

Who can take the survey?

We want to hear from occupational therapy practitioners who:

- have provided assessment or interventions services to adults with a physical or vision disability in the United States.

** You do not need to have provided services to a parent or caregiver, or to have provided services focused on parenting to complete this survey.*

How can I take the survey?

- Take the survey at <https://redcap.link/TLGOTSurvey>

Through the Looking Glass (TLG) provides services and resources to support families with disabilities throughout the lifespan. Learn more about research at TLG <https://lookingglass.org/>
