**Course Description, Program Format and Speakers:** This educational activity emphasizes current trends, professional practice, and other issues in the field of Occupational Therapy. Speakers will focus on knowledge and experience as it relates to the COVID pandemic. Topics include a discussion on the epidemiology, transmission, infection prevention practices and therapeutics associated with COVID, as well as cases highlighting occupational therapy practice in multiple settings.

**Registration information:**
Register Online: **https://cedars.cloud-cme.com/OTFORUM**

Registration Fees: Registration and payment must be received by July 20th.

- Standard Registration: $25.00
- Students, OTAC Members and C-S affiliates: $10.00

**Refund Policy:** All cancellations must be submitted in writing. No refunds will be given after July 20, 2021. For questions regarding continuing education credit, special needs and accommodations, and other requests, please contact: MariaCecilia.Alpasan@cshs.org or call (310)423-5243. For information on grievances related to this workshop, please include the name and date of this workshop and submit the complaint to the contact provided above.

**Virtual Event:** By registering for the virtual activity, you will be able to view presentations, hear live audio, and interact online. This virtual activity will be fully web-based, and you will need a computer/laptop or tablet, audio and an internet connection. Details will be emailed to all attendees before the activity. Please be aware that you are not authorized to record, copy or share content in any manner.

**Educational Objectives:** At the conclusion of this activity, participants will:
1. Discuss current COVID-19 epidemiologic trends, therapeutic options, COVID vaccine considerations, and risk factors for COVID-19 transmission among healthcare workers.
2. Discuss current trends relevant to the practice of occupational therapy.
3. Understand how the Person, Environment, Occupation, and Performance theoretical model is applicable for use by OT practitioners needs and response to the COVID-19 pandemic.
4. Provide examples of best practice to meet to meet the needs of the COVID recovered population

**Target Audience**: Occupational Therapists, Occupational Therapy Assistants and students
**Occupational Therapy CE Information:** ***Content Level: Beginner/Intermediate***
***Content Focus: Category 3, Professional Issues***

**Policy on Disclosure:** In accordance with the policy of Cedars-Sinai Medical Center, faculty is asked to disclose any affiliation of financial and non-financial interests that may affect the content of their presentation. While Cedars-Sinai endeavors to review faculty content, it remains the obligation of each attendee to determine the applicability or relevance of the information provided from this course in his or her own practice.

**Faculty Disclosure:** Faculty for this program have no financial or non-financial relationships to disclose.

**This course is being evaluated for 3.0 contact hours. A certificate of attendance will be issued to participants at the end of the event after completion of requirements. No partial credit is being offered for this course.**
